TIMBER OX™ GREEN QUALIFIES AS A USDA BIO-PREFERRED BIO-BASED WOOD STAIN.

Timber OX™ Green does not use petroleum based solvents. Instead, it uses citrus and castor oils. Citrus Oil is also a natural insect repellent. Since Timber OX™ Green contains agriculturally derived ingredients it qualifies as a Bio-preferred Stain with the USDA.

To learn more about bio-preferred products go to www.biobased.oce.usda.gov.

Premium Exterior & Interior Oil
Based Wood Protectant Stain

WHAT IS TIMBER OX™ GREEN?

Timber OX™ Green is a robust, agriculturally based oil stain. It exceeds all State and Federal VOC, Environmental Protection Agency standards, allowing it to be sold in all 50 States. Timber Ox™ Green uses nano particle technology, triple polymer resins, and iron oxide pigments to permanently protect against UV light and damage from the outdoor elements.

WHAT DOES THAT MEAN TO YOU?

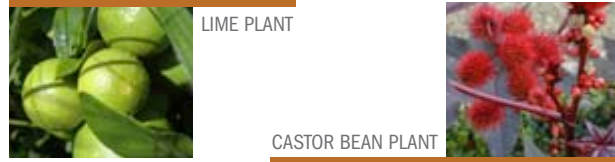

Timber OX™ Green lasts longer than other wood stains because it's stronger than conventional wood treatments. With a formula that contains high solids, and more wood protecting compounds, Timber OX™ Green does not build up and peel off or wash away. Timber OX™ Green bonds deep inside at the cellular level to deliver long lasting protection.

WHAT SETS TIMBER OX™ GREEN APART?

Timber OX™ Green utilizes Triple Polymer Protection which is composed of polyester, polyurethane and acrylic resins. Each resin plays an important part in the overall protection of the wood and they are derived from agriculturally renewable resources. Almost all other products contain only one polymer resin.

PRESERVE YOUR WOOD STRUCTURES WITHOUT HARMING THE ENVIRONMENT

The carrier oils in Timber Ox™ Green Wood Stain are Citrus Oil and Castor Oil. These oils are wood loving oils that are absorbed into the wood and do not harden or turn to powder like the Linseed Oil used in many other stains. Castor Oil is derived from castor beans and Citrus Oil is derived from lemon and lime peels, both of which are agriculturally renewable resources.

LIME PLANT

CASTOR BEAN PLANT

Timber OX™ Green contains an agriculturally formulated Algaecide, Mildecide and Fungicide that is safe for incidental food contact yet is rated to prevent the growth of algae, mildew and fungus on your wood structures.

Timber OX™ Green contains premium Transparent Iron Oxide Pigments that bring out the natural beauty of wood and screen out ultraviolet light which is damaging to wood. Transparent Iron Oxide Pigments are natural pigments derived from the earth.

EIGHT BEAUTIFUL SHADES

| TIMBER OX™ GREEN FEATURES | BENEFITS |
|--|--|
| BIO-BASED FORMULATION | Meets all local, state and federal air quality regulations. |
| UNIQUE NANO PARTICLE UV SUNSCREEN FORMULA | Timber OX™ Green contains nano-particle sized, transparent, titanium dioxide as a sunscreen to prevent ultraviolet light damage to the wood. This is the same technology used in the sun block that you put on your skin when you go to the beach. |
| EXCLUSIVE TRIPLE POLYMER PROTECTION— UNIQUE TO TIMBER OX GREEN ACRYLIC, URETHANE AND POLYESTER FORMULA | Three resins in one extend the product life and are non-yellowing and fade resistant with exceptional water resistance and weatherability. |
| POWERFUL ANTI-OXIDANT FORMULA | Protects against oxidation and resultant cracking and degradation of base resins. |
| HIGH PERFORMANCE ANTI-MOLD, MILDEW & ALGAE FORMULATION | Exceptional mold, mildew and algae resistance. |
| TRANSPARENT IRON OXIDE PIGMENTS | Highlight and protect the natural warmth and beauty of wood. |
| CASTOR BEAN AND CITRUS OIL FORMULA | Castor bean and citrus oils are wood loving, natural, renewable, agricultural carrier oils with exceptional heat resistance and durability which protects wood fibers creating a water resistant barrier. |
| NON-OZONE PRODUCING & NON-OZONE DEPLETING FORMULATION | Timber Ox™ does not create ozone (smog) or deplete upper atmosphere ozone. |

TIMBER OX™ GREEN IS AN AGRICULTURAL BASED PRODUCT THAT HIGHLIGHTS THE NATURAL BEAUTY AND WARMTH OF THE WOOD WITHOUT HARMING THE ENVIRONMENT

INTERIOR AND EXTERIOR APPLICATION

Timber OX™ Green can be used as both an interior and exterior stain that beautifies and protects wood surfaces. It is easy to apply and is formulated to eliminate overlap marks. Timber OX™ Green is a fast drying product which enhances the natural grain of the wood and restores life to old damaged wood. Timber OX™ Green has an exterior warranty of 3 years on horizontal surfaces and 5 years on vertical surfaces.

FOR USE ON DECKS, FENCES, LOG HOMES, WOOD SIDING AND OUTDOOR WOOD STRUCTURES
